

JEVOLVE PRESENTS

DAMANHUR MYSTERY SCHOOL WORKSHOPS, 2017-2018, Pittsburgh, PA.

October 26-27th 2017 ~ Ancient Civilizations and Pre-Atlantean History

The existence of human beings in this universe dates back much further than we have been led to believe. The origin of the different evolutionary strands of human seeds on Earth is a result of a succession of ancient alien and extraterrestrial colonies, and their cultural and territorial influences.

In this workshop, we will focus on such classic themes as Atlantis, galactic civilizations, alien species, and stellar empires with which and with whom we have crossed paths and destinies.

October 28th-29th 2017 ~ Astral Travel

If you've ever wondered whether it's possible for your consciousness to leave your physical body and travel to other dimensions of reality this is the course you've been waiting for.

In this special Damanhur Mystery School Workshop, you will reawaken this hidden ability and travel to the "astral plane" (the realm experienced in dream state) while completely relaxed yet fully alert, expand your knowledge of reality and perceived boundaries, and freely explore your consciousness, which exists outside of the body, in higher dimensions.

February 1st - 2nd 2018 ~ Spiritual Physics

Spiritual Physics provides a framework to uncover the mysteries of our universe and how we are connected as well as understand practical cosmology and answer our biggest questions such as "Who are we?" "Where do we come from" "Why are we here?" And "Where are we going?"

This workshop will explore The Structure of Reality & The Universe, The Nature of Time, The Time Empires and The Planes of Reality; Alchemy, Selfica, Magic Technology and much more.

February 3rd - 4th 2018 ~ Inner Harmonization

The origins of Inner Harmonization date back to the time of Atlantis, where it was used to give meaning to actions, emotions and perceptions, and to manifest desires with certainty. This practice activates your physical and subtle components, stabilizes their existence in the world of Form, and strengthens your power to create through words and thoughts. For those that seek to reawaken the divine spark, it is a path toward enlightenment.

This workshop comprises a series of physical and subtle exercises to progressively increase your range of perception, develop your sensorial sensibility and give new energy and new "existence" to the processes that are happening inside and outside you, increasing their ability to interact on the ethereal and corporeal planes.

March 8th-9th 2018 ~ Dream Path

Dreaming is a fundamental element of life and is vital for spiritual growth and self-awareness. By training our sense of dream, we can use our dreams deliberately, both asleep and awake, for our personal evolution and growth.

This workshop shows you how to interpret your dreams and, with practice, consciously act in other realms. You will learn Damanhur's original technique to open psychic patterns that support the passage to different levels of dreaming, along with exercises that strengthen lucid dreaming activity and aid in deciphering the events and sensations experienced.

March 10th-11th 2018 ~ Communication with the Plant World

Each breath you take is evidence of the interdependence between you and the world around you. And yet, how aware are you of this connection to the world of nature? For the past 40 years, Damanhur has conducted extensive research of the plant world and the ability of plants to communicate. Through their experiments, they have learned that plants have feelings, memory and can communicate. And now they have created a device that allows you to listen to the "music of the plants." Imagine a concert performed by your favorite houseplants!

In this workshop, you will learn various techniques and exercises for in-depth connection with trees through and beyond your five senses.

May 3rd-4th 2018 ~ Divination

Reality speaks to us in many ways. Cards and other tools of Divination contain symbols that create a resonance which allows us to read the messages inherent within them. The cards serve as a bridge to translate thoughts into concepts to be used for growth and knowledge.

The techniques taught in this workshop will enable you to develop your intuitive skills, enhance your sensitivity, reach higher levels of consciousness, find answers to all your questions, and act with calm decisiveness in any situation. Theory and practice will weave together to make this course a fun but deeply insightful experience of the magic that's possible to access in daily life, by anyone.

May 5-6th 2018 ~ Past Lives Research II

The "story of our soul" across the vast continuum of time and space carries with it valuable information that can assist us in our present lives. What we learn about our "former selves" can infuse our current experiences with deeper meaning, purpose, contentment and joy.

In this workshop, art, theatre, meditation, play, journeying and other practices are explored to help you reawaken and re-embodiment the "character" you once were. In doing so, you will learn how to apply this to the present to better understand your personality traits, reconnect with past competencies and overcome limitations.

PRICES: All workshops \$280 (Early Bird \$250) except Past Lives Research which is \$325. (Early Bird \$300). Early bird discounts end 30 days prior to Workshop date.

Take one or more at your convenience, or SAVE \$500 & take them all in one 14-day intensive for \$1800
